

REMINDER: Beaconia Incident Meeting Saturday 2 PM

A reminder of our open public meeting at 2 PM Saturday to save the Beaconia Marsh.

Meeting location map is available at <http://www.beaconia.ca/rumors.php> under "rumours of trenching". Information has been updated at that site so it is current.

The actual address using the 911 signs is 31145 Road 86 N. It is near the center of the town of Libau North of Hwy 59. Weather is to be good so enjoy a short drive in the country.

Lots of information, and hopefully some new input from many invitees. Everyone will be brought up to speed and have an opportunity to ask questions. This is to be a polite and respectable meeting. It is about getting answers, not mud-slinging. There will be the ability for any information people have on memory sticks to be shown on a projector from my laptop so all can see.

Coffee will be served at no charge. A pass-the-hat collection for the Libau Community Centre will be held. They are providing their facility at no charge for us to enjoy.

Anyone interested or concerned is welcome. This is an open meeting to all. Bring a friend or neighbour with you. Everyone is bound to learn a few things.

Let's answer the questions and work toward protecting the marsh for all to enjoy.

Thank you to all the volunteers who have been working hard to get us as far as we have.

I hope to meet you all there.
